SKILLS

Languages
• Python • JavaScript • C • C++
• PHP •Java

•Strong Skill in algorithms, data structures and problem solving.
•Extensively used version control system GIT.

Frameworks
• Flask • AngularJs
• CodeIgniter • Scrapy

Databases
• MySQL

Tools
• Git

ACHIEVEMENTS

• *Snack Down Code chef 2016*: This is one of the prestigious contest by Code Chef held every year. My team qualified the qualification round of this contest.
• **Google Code jam**: A programming contest organized by Google. Qualified the qualification round.

• Secured an AIR 2172 in *GATE 2017*.

• *Honorable Mention*:
ACM ICPC 2015, 2016 Asia regional's Amritapuri University.

EXPERIENCE

Naxap – Backend Developer (Intern) *(Aug 17 - Present)*
• Working on Scrapy(An open source and collaborative framework for extracting the data one need from websites) .
• Have to write a crawler module for each website sources, crawl and identify the pages/data where digital content details are available in the web pages and extract that information, filter it and save into relational database.
• Also have to write a Cron(Scheduler) to perform above tasks and updating the data.

Open Sense Labs – Software Trainee (Intern) *(Jun 17 - Jul 17)*
• Worked on Web development using Drupal.
• Bug fixes and issues on existing Drupal Modules.
• Modules creation using PHP.

Encoded Technologies Web Development Intern *(Mar 17 – Apr 17)*
• Worked on an E-Commerce website using Prestashop E-Commerce CMS where I learned how to work with Prestashop modules and themes.

OPEN SOURCE

Duck Duck Go *Sep 15 - Feb 16*

Contributed to Duck Duck Go cheat sheets.

PROJECTS

All projects can be found on *github.com/shubhamrajput*

Buzz Events: Minor Project (Aug 15 – Dec 15)
Buzz Events is a free web application which helps the user about the registered event reminders on specified date/time and also sends wishes (SMS message/email) automatically to the registered contact on specified date/time.

Web Scrapping (Jun 16)
JavaScript query (Jquery) that can pull out the given data from any Skill Share profile teaching page.

Ecart (Oct 14 – Dec 14)
Online shopping website as my project in database using PHP and MYSQL as backend technology and HTML and CSS as frontend technologies.

Chrome Extension
•A chrome extension which shows a different movie wallpaper on opening new tab.
•Also it will store all the results of api call in chrome local storage and use the same data in subsequent calls instead of making new calls on each new tab.
